Mini-INPUT & Best of INPUT

In recognition that a great many working TV professionals cannot make it to INPUT each year, **Mini-INPUT's** and **Best of INPUT's**, are held in more than 30 countries to allow greater access for all each year.

Mini-INPUT's focus on the edition in the same year, and take place after the INPUT Conference which is held each year in May.

Best of INPUT's in contrast may focus on the previous three years of INPUT pre-ceding the event.

These events are usually organised by the National Coordinators, the Goethe Institut and/or other partners of INPUT - depending on where the **Mini-INPUT** of **Best of INPUT** will take place.

All programmes for these events can be obtained from the INPUT International Hubs - of which there are six - or you can obtain the programmes from the **INPUT Archive** in Barcelona, Spain or the **Goethe-Institut** in Munich, Germany.

Some conditions apply when organising either of these events. A detailed guide - **How to organise a Mini-INPUT** - is a good reference point on the steps you need to go through when organising either of these events.
